

PROCESSABILITY + COLORABILITY

GLOBAL CABLE MANUFACTURER

MICROMODULES FOR OPTICAL
FIBER CABLES

AVIENT SOLUTION

ECCOH LSFOH 6154 UV

WHY AVIENT?

- Enabled faster processing speeds and manufacturing consistency with a reliable material, eliminating waste
- Enabled easier installation with excellent colorability at low wall thickness
- Provided technical support to transfer the product to multiple plants

LEARN MORE

KEY REQUIREMENTS

Meet specific standards for stranded, loose tube, optical fiber cable performance and production, including:

- High speed processing at a low wall thickness
- Good colorability
- Resistance to chemicals and filling compounds
- UV ageing performance
- Low shrinkage
