AVIENT SOLUTION

Cesa™ WithStand™ Antimicrobial Additives
with OnColor™ Colorants

WHY AVIENT?

- Preserved polymer performance by minimizing undesirable microbes
- Designed a masterbatch solution that achieved color harmony between diverse polymeric materials even with the addition of antimicrobial ingredients
- Accelerated speed to market by several weeks with Avient's pre-tested material and supplier expertise while reducing costs of lab testing fees by up to \$50,000

KEY REQUIREMENTS

- Diminish the growth of harmful microbes on surfaces without compromising product performance
- Achieve cohesive color across different polymeric materials with the addition of antimicrobial ingredients
- Accelerate product development timeline
